CATHOLIC MEDICAL ASSOCIATION

Upholding the Principles of the Catholic Faith in the Science and Practice of Medicine

September 25, 2014

Dear Colleagues,

The Orlando Guild and all the Catholic Medical Association Guilds of Florida are honored to host the 83rd Annual Educational Conference of the Catholic Medical Association. We warmly welcome each of you to Florida, "The Sunshine State."

In these challenging times, Pope Benedict XVI has spoken of the need for "courage to contradict the prevailing mindset...and the courage to stand firm in the truth." This year's conference theme, *Courage in Medicine: Defending and Proclaiming the Faith in the New Evangelization* will examine the grave threats posed by a radical and progressive secularization of our society and its impact on the practice of medicine. We will focus on the virtue of moral courage and its importance to all physicians and medical professionals who bear public moral witness to the critical medical issues of our times. We will underscore the necessity of defending the most vulnerable in our society and expose the tactics being used to dehumanize them. Lastly, we will discuss the critical mission healthcare professionals have in advancing the New Evangelization.

Our conference committee has assembled a highly distinguished faculty, representing the fields of medicine, theology, law and journalism. These men and women have been selected not only for their great knowledge but also for the courageous witness they have shown in their respective disciplines.

It is our sincere prayer that this conference will enrich the faith and education of all participants and that each of us will leave fortified and inspired by grace and knowledge. We echo the words of Our Holy Father, Pope Francis: "My wish is that all of us, after these days of grace, will have the courage, yes the courage, to walk in the presence of the Lord."

Sincerely in Christ,

Peter Morrow MD
President-Elect
2014 Conference Chair

My Sisters and Brothers in Christ,

Welcome to the 83rd Annual Educational Conference of the Catholic Medical Association (CMA)! I am grateful to the members of the CMA's local chapter who serve as host to this wonderful gathering. I look forward to joining you for the celebration of Mass.

As you learn and pray about the theme of your conference, "Courage in Medicine, The Call for the New Evangelization," I ask you to reflect upon Pope Benedict XVI fervent prayer that the sick be important participants in the New Evangelization.

"The New Evangelization must be ever aware of the Paschal Mystery of the death and Resurrection of Jesus Christ. This mystery sheds light on the suffering of people who can find in the Cross of Christ understanding and acceptance of the mystery of suffering that gives them hope in the life to come. In the sick, the suffering, persons with disabilities and those with special needs, Christ's suffering is present and has a missionary force. Through the sick, Christ enlightens His Church, so that everyone who enters into contact with them will find reflected the light of Christ."

May your gathering together be filled with hope and blessing. May each one of you be renewed by the Spirit and leave the space of your conference to go in Peace, glorifying the Lord by your life.

Sincerely yours in Christ,

Most Reverend John Noonan
Bishop of Orlando

DIOCESE OF LINCOLN

OFFICE OF THE BISHOP

August 14, 2014
Saint Maximilian Kolbe

Dear Members of the Catholic Medical Association,

I consider it a great privilege to have been asked this past year to serve as the Episcopal Adviser to the Catholic Medical Association. In the short time I have served in this new capacity, I have been able to meet a good number of our members and I have been impressed with their commitment to practice medicine in accord with the wisdom and teachings of the Catholic Church.

The mission of the Catholic Medical Association is to "inform, organize, and inspire its members, in steadfast fidelity to the teachings of the Catholic Church, to uphold the principles of the Catholic faith in the science and practice of medicine." This work has never been more important.

Medical professionals in our day face unprecedented challenges. Freedom of conscience is threatened by unjust government regulations, by increasingly troubling standards of care, and by the pervasive decline of traditional ethical standards in our culture. To practice medicine today requires courage, fortitude, and integrity.

I have great confidence in the Board and leadership of the Catholic Medical Association. I am grateful for the stellar leadership and years of dedicated service to the CMA by our outgoing Executive Director, John Brehany, as well as the spiritual guidance of Father Matthew Gutowski, our chaplain. And I am inspired by the creative initiatives and apostolates of our guilds, and their members.

Your good work is essential to the protection of the unborn, the poor, and the dignity of the human person. Thank you! Please be assured of my prayers, and my continued resolve to serve the membership of the Catholic Medical Association.

Sincerely yours in Christ,

The Most Rev. James D. Conley
Bishop of Lincoln

JESUS, MY PATIENT

Dearest Lord, may I see you today and every day in the person
of your sick, and, while caring for them, minister unto you.

O beloved sick, how doubly dear you are to me,
when you personify Christ; and what a privilege it is
to be allowed to care for you.

Sweetest Lord, make me appreciative of the dignity
of my high vocation, and its many responsibilities.

Never permit me to disgrace it by giving way to coldness,
unkindness or impatience.

And O God, while you are Jesus, my patient,
deign also to be patient with me, bearing with my faults,
looking only to my intention, which is to love
and serve you in the person of each of your sick.

Lord, increase my faith, bless my efforts
and work, now and forevermore. Amen

BLESSED MOTHER TERESA OF CALCUTTA

PRAYER OF THE CATHOLIC PHYSICIAN

LORD JESUS,

Divine Physician, who in your earthly life showed special concern for those who suffer and entrusted to your disciples the ministry of healing, make us ever ready to alleviate the trials of our brethren. Make each one of us, aware of the great mission that is entrusted to him, strive always to be, in the performance of daily service, an instrument of your merciful love. Enlighten our minds, guide our hands, make our hearts diligent and compassionate. Ensure that in every patient we know how to discern the features of your divine Face.

YOU WHO ARE THE WAY, provide us with the gift of knowing how to imitate You every day as medical doctors not only of the body but of the whole person, helping those who are sick to tread with trust their own earthly path until the moment of their encounter with You.

YOU WHO ARE THE TRUTH, provide us with the gift of wisdom and science in order to penetrate the mystery of man and his transcendent destiny as we draw near to him in order to discover the causes of his malady and find suitable remedies for it.

YOU WHO ARE THE LIFE, provide us with the gift of preaching and bearing witness to the 'Gospel of life' in our profession, committing ourselves to defending it always, from conception to its natural end, and to respect the dignity of every human being, and especially the dignity of the weakest and the most in need.

Make us O Lord, Good Samaritans, ready to welcome, treat, and console those we encounter in our work. Following the example of the holy medical doctors who have preceded us, help us to offer our generous contribution to the constant renewal of health care structures.

Bless our studies and our profession; enlighten our research and our teaching. Lastly, grant to us, having constantly loved and served You in our suffering brethren, that at the end of our earthly pilgrimage we may contemplate your glorious countenance and experience the joy of the encounter with You in your Kingdom of joy and everlasting peace. Amen

JOHN PAUL II

THE VATICAN, JUNE 29, 2000

The 1995 Restatement of **THE OATH OF HIPPOCRATES**

I SWEAR in the presence of the Almighty and before my family, my teachers and my peers that according to my ability and judgment I will keep this oath and stipulation:

TO RECKON all who have taught me this art equally dear to me as my parents and in the same spirit and dedication to impart a knowledge of the art of medicine to others. I will continue with diligence to keep abreast of advances in medicine. I will treat without exception all who seek my ministrations, so long as the treatment of others is not compromised thereby, and I will seek the counsel of particularly skilled physicians where indicated for the benefit of my patient.

I WILL FOLLOW that method of treatment which according to my ability and judgment, I consider for the benefit of my patient and abstain from whatever is harmful or mischievous. I will neither prescribe nor administer a lethal dose of medicine to any patient even if asked nor counsel any such thing nor perform act or omission with direct intent deliberately to end a human life. I will maintain the utmost respect for every human life from fertilization to natural death and reject abortion that deliberately takes a unique human life.

WITH PURITY, HOLINESS, AND BENEFICENCE I will pass my life and practice my art. Except for the prudent correction of imminent danger, I will neither treat any patient nor carry out any research on any human being without the valid informed consent of the subject or the appropriate legal protector thereof, understanding that research must have as its purpose the furtherance of the health of that individual. Into whatever patient setting I enter, I will go for the benefit of the sick and will abstain from every voluntary act of mischief or corruption and also from the seduction of any patient.

WHATEVER IN CONNECTION with my professional practice or not in connection with it I may see or hear in the lives of my patients which ought not be spoken abroad I will not divulge, reckoning that all such should be kept secret.

WHILE I CONTINUE to keep this oath unviolated may it be granted to me to enjoy life and the practice of the art and science of medicine with the blessing of the Almighty and respected by my peers and society, but should I trespass and violate this Oath, may the reverse be my lot.

ACADEMIC OVERVIEW

DESCRIPTION

The ethical foundations of Western medicine were laid down by Hippocrates in ancient Greece. Hippocrates, extolled for his moral courage, boldly rejected the relativistic values of Greek mainstream medicine and staunchly defended the dignity of each human life. In today's contemporary culture of moral relativism, physicians also must courageously battle assaults on human life and human dignity. This three-day conference will examine the grave threats to medical practitioners and their patients that have arisen from a radical and progressive secularization and explore its impact on the medical profession. It will delve into areas of medical practice that demand great moral courage: safeguarding the sanctity of life and the dignity of each patient, defending the rights of conscience, preserving the patient/physician relationship, upholding the importance of natural moral law in addressing increasingly complex bioethical issues, and influencing the culture of medicine through participation in health care decision making.

CONFERENCE INFORMATION

AUDIENCE & OBJECTIVES

INTENDED AUDIENCE

This activity is intended for physicians, osteopathic physicians, dental surgeons, dentists, physicians in training (e.g., residents, interns, and medical students), allied health professionals (e.g., physician assistants, nurses, etc.), scientists, members of the clergy, seminarians, and people of good will (general public).

EDUCATIONAL OBJECTIVES

The following objectives will be met through the conference presentations:

- Recognize the importance of freedom of conscience and conscience protection in their daily practice.
- Be aware of the erosion of virtue ethics in the practice of medicine.
- Attain competency in addressing the spiritual needs of patients.
- Understand the importance of natural moral law in addressing increasingly complex bioethical issues.

2014 CONFERENCE SCHEDULE

THURSDAY'S SPECIAL EVENT

SeaWorld and Sharks Underwater Grill

An Adventure of Thrilling Sights and Fine Dining!

Come and enjoy an unforgettable evening of fine dining in a visually stunning underwater environment. The adventure begins as you arrive at SeaWorld after hours and are escorted to the Shark Encounter Attraction. An aviary of roseate spoonbills will welcome you at the entry of the exhibit. Once inside, you will journey through one of the world's largest underwater viewing tunnels for a rare, close-as-you-dare look at these amazing sea creatures. Prepare for an exhilarating encounter with the prehistoric predators whose ancestors dominated the sea over a hundred million years before dinosaurs walked the earth. You will continue to “mingle” with the sharks as you enter the Sharks Underwater Grill where the only thing more amazing than the food is the view! Join us for this “not to be missed” Florida experience!

Thursday, September 25 · 6:30 P.M. · SeaWorld / Sharks Underwater Grill

2014 CONFERENCE SCHEDULE

FRIDAY'S SPECIAL EVENT

Eric Genuis Concert

An Evening of Soul-stirring Entertainment!

On Friday evening internationally acclaimed composer and virtuoso pianist Eric Genuis, who travels the world touring with first-class soloists, will present a concert showcasing his much celebrated, original compositions while spreading his timely message of music and its impact on culture—bringing hope and healing to the human soul.

Friday, September 26 · 8:15 P.M. · Venetian Ballroom

31

Isaiah 12:2

Charles LiMandri, J.D.

St. Thomas More stands as a model of conscience for all of us who battle against religious tyranny. Mr. Charles Li-Mandri studied the life and works of St. Thomas More for a year as a graduate student in Oxford England. His immersion in the works of St. Thomas More began a lifetime of devotion to this courageous saint. The lessons of St Thomas More's life and death are invaluable in our present day.

KEYNOTE LUNCHEON ADDRESS

Pastoral Care in Health and the New Evangelization for the Transmission of the Faith

The Thirteenth Ordinary General Assembly of the Synod of Bishops took place in the Vatican on October 7-28, 2012. Its theme was “The New Evangelization for the Transmission of the Christian Faith”. At the end of their deliberations, the Synod Fathers addressed a Message to the whole world in which specific places for the new evangelization were identified: the family, parishes and the *world of health*.

MARQUETTE UNIVERSITY INSTITUTE FOR NATURAL FAMILY PLANNING

Marquette University College of Nursing Institute for Natural Family Planning (INFP) was established in 1997 for the purpose of providing professional education, research and service in natural family planning (NFP). Reflecting the mission of Marquette University the mission of the INFP is to serve God by contributing to the advancement of knowledge in natural family planning and by collaboration with the Catholic Church in local, state, and national NFP programs.

The three major goals of the Institute are to:

- 1) Provide NFP Teacher Training for Health Professionals,
- 2) Conduct Research and Scholarship in NFP, and
- 3) Develop and Offer Innovative NFP Services.

In 2013 the INFP launched self-paced NFP Teacher Training and Medical Application courses with CMEs through the Medical College of Wisconsin.

Published six peer reviewed effectiveness studies of the Marquette Model of NFP since 2007, including special studies on postpartum breastfeeding, perimenopause, and achieving pregnancy.

The Marquette Model of NFP (which is only offered by health professionals) offers the latest hormonal monitoring, online Web site charting, and new for 2014, a fertility monitoring app. Enrolled over 1,200 new couples in past year.

*Helping couples to
live with their God
given gift of

UNIVERSITY OF DALLAS

The Catholic University for Independent Thinkers

8 OUT OF 10

UNIVERSITY OF DALLAS

**PRE-MED STUDENTS
ARE ACCEPTED
INTO MEDICAL SCHOOL**

**[And they aren't
all biology
majors, either.]**

While biology is one of UD's most popular majors, our pre-med students also major in subjects as diverse as pastoral ministry, business or English, creating a well-roundedness that medical schools appreciate. Nearly 85 percent of UD's pre-med students are accepted into medical school — significantly higher than the national average of around 50 percent. The primary culprits for this high acceptance rate: the strength of our biology program and the foundation of a rigorous liberal arts core curriculum. Throw in the individual guidance afforded by a low student/faculty ratio, and there's no question why our students are in high demand.

**DISCOVER MORE ABOUT THE CALIBRE OF UD STUDENTS AND OUR
PRE-PROFESSIONAL PROGRAMS. VISIT UDALLAS.EDU/PREMED.**

Congratulations to

Peter T. Morrow, M.D.

CONFERENCE CHAIR

for an Inspiring Annual Educational Conference

*Our Prayers and Best Wishes Are with You
as You Assume the Presidency*

**From the PAST PRESIDENTS of the
Catholic Medical Association**

We Welcome

Paul J. Braaton, M.D.

CMA PRESIDENT 2013-2014

*As a Member of Our Ranks,
with Deep Gratitude for a Job Well Done*

MMR not linked to Autism? Not so fast!

Did you know a recent publication in the journal Pediatrics showed no link between autism and the **ANIMAL** cell culture -based MMR used in Japan?

OF COURSE, there is NO link between ANIMAL -based MMR and autism!

Our studies only show a link between **ABORTED HUMAN FETAL** vaccines and autism!

Partner with us to create safe and moral vaccines so that the health of all children can be protected without sacrifice of conscience and morals.

*The Alliance of Catholic Health Care
Welcomes the Catholic Medical Association
to Orlando, Florida!*

Since the first disciples healed a paralyzed man “in the name of Jesus Christ,” (Acts 3:1-10), Christians have followed the model and Call of Jesus to care for the sick, the poor, and the vulnerable. Throughout history, the Call has remained the same, while the methods and means of care have adjusted in response to the needs and signs of the times. In the United States, the Call has taken the form of a large institutional ministry presence.

Catholic health care providers have been witnessing their commitment to Jesus' Call by serving California communities for over 150 years. Today, three Catholic health care systems, and three independent hospitals operate 50 Catholic and community-based hospitals throughout California. They are committed to providing high quality, low cost care to their patients and improving the overall health and well-being of their communities. Catholic health care providers comprise 16 percent of California's hospitals.

The Alliance of Catholic Health Care strengthens the Catholic health care ministry in California by providing a statewide forum through which ministry leaders collaborate on advocacy, ministry leadership formation, the advancement of religious freedom, Church relations and other issues that enhance the common good of the patients and communities they serve.

Where Love and Healing Flow.

When is a hospital not just a hospital?

When it finds emergency shelter for families in crisis.

When it provides primary healthcare for children without access.

When it provides prenatal care and delivery to uninsured and underinsured women.

When it donates millions in free medical care to those in need.

When it partners with other organizations to provide dozens of critical humanitarian services to its neighbors, including the poor and uninsured.

In short, when it's St. Mary Medical Center.

It's your health. Expect more.

HEALING OR HUMAN ENHANCEMENT?

THE FUTURE OF MEDICINE

APRIL 17–18, 2015 • Washington, DC

www.CenterForCulturalAndPastoralResearch.org

This symposium will discuss the profound questions surrounding the new possibilities not only for healing but also for so-called human 'enhancement' by exploring the effect these have on our expectation of health and the practice of contemporary medicine.

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of Providence Hospital and the Pontifical John Paul II Institute. Providence Hospital is accredited by MedChi, The Maryland State Medical Society to provide continuing medical education for physicians. Providence Hospital designates this educational activity for a maximum of 1 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity. The following committee members, planners, and staff have indicated that they have no relevant financial relationship to disclose: Dr. P. Evans, MD, Dr. J. Meyer and Sam Ninan. The speakers do not have relevant financial relationships with commercial interests. Speakers do not have financial interest in the past 12 months. Speakers will not discuss unlabeled/unapproved or investigational use of any product during the presentation.

CATHOLIC DISTANCE UNIVERSITY

PRESENTS

Ethical Dimensions of Public Health Crises

Join Us for a 3-Week Online Seminar
October 20 – November 10, 2014

Like-minded Catholics will examine major public health crises that have captured worldwide attention in light of Church teachings. What drives AIDS, Malaria, Maternal Mortality, and Breast Cancer epidemics? What preventive approaches have been prioritized? What has proven effective in reversing the course of these epidemics? Explore the deeper ideological undercurrents that determine prevention policy and examine the politics behind what is reported to the public as “evidence-based.”

CDU also offers an MA in Theology degree. Join other doctors who have studied theology to deepen their faith and enrich their professional lives!
